Inspector Report 2023

This report is an assessment of the administration of HHUS, based on the HHUS statues and regulations. The annual meeting and the HHUS board appointed me in the inspector role in April 2022, when the annual meeting was held. This report covers the calendar year 2023.

The board meetings were mostly held physically during the year. I have in my role as the Inspector attended some of the board meetings and have had discussions primarily with the presidium. During fall 2024, the communication was mostly over e-mail or zoom, due to me being on parental leave. The board meets regularly and material for the meeting is sent out in advance. The board of 2022 has continued the tradition of well-planned and organized meetings. Minutes are published on the HHUS website along with all statues, policies, and regulations, making the work transparent, well documented, and possible to follow for the members. All documents are accessible in English.

The year has brought challenges which the board has tackled in a professional way. I have had meetings with the presidium to discuss incidents and challenges. The presidium has always acted very professional, being well prepared and open for other perspectives even in difficult situations.

The activities, arranged by HHUS, have continue to contribute to a positive and memorable study time for the students at the Umeå School of Business, Economics and Statistics. The finances are carefully overseen, which enables continued development of the various activities within the association.

My advice is to grant discharge to the HHUS board.

Umeå 2024-04-08

Elin Nilsson

Inspector
