

UMEÅ SCHOOL OF BUSINESS,  
ECONOMICS AND STATISTICS  
UMEÅ UNIVERSITY

## *Report 2020 by the Inspector*

This report is an assessment of *HHUS*'s administration based on the association's statutes. The year 2020 did not turn out the way we wanted it to be. Looking back, it was a year of challenges for *HHUS* students in many respects with restrictions affecting daily life at the university but also social activities. With this said, the board of the *HHUS* has continued to work successfully in good spirit. The board of 2020 has continued the tradition of well-planned and organized meetings. The board's work is transparent, well documented and possible to follow for the members of *HHUS*.

The pandemic restrictions have affected all parts of *HHUS* activities, e.g. business contacts and the planning of *Uniaden* in a digital format. The pandemic restrictions have impacted most severely on the Social activities within *HHUS*.

The association shows interest and responsiveness to *USBE*'s strategic work in the area of sustainability. Furthermore, *HHUS* demonstrates a strong commitment and willingness to cooperate and participate in *USBE*'s development work and external activities. The finances of *HHUS* are carefully overseen by the Finance Committee, which enables continued development of the various activities within the association. The advice from the inspector is to grant discharge to the *HHUS* board.
